The Board of Management have pleasure in presenting their Eighty-third Annual Report and Statement of Accounts for the year ended 31st December, 1946.

ALMONER'S DEPARTMENT.

The Almoner's Department dealt with 3945 in-patients. They are classified as to Recommends, etc., as undernoted :—

SHEFFIELD "1d. in the £" Scheme :

6 patients brought Jessop Hospital Recommends.

Of the 1,682 maternity patients admitted, 98 paid all, and 1324 (being contributors to the "1d. in the £" Scheme) a proportion of the National Health Insurance Maternity Benefit.

INCOME AND EXPENDITURE.

Ordinary Income fell by £3,738 (totals £50,422 v £54,160). A large decrease in ordinary income from the Contributory Scheme, amounting to £6,466, was partly balanced by increased revenue from other sources. Other substantial payments were, however, received from the 1d. in the £ Scheme, and are referred to later.

The total expenditure amounted to £90,541, an increase of £18,287 over the previous year. Nearly half the increase represents higher rates of salaries and wages; the larger proportion of the remainder was due to higher costs and increased quantities in the provisions, dispensary and domestic groups.

Expenditure exceeded ordinary income by £40,119.

1d. IN THE £ SCHEME.

In spite of the shadow of coming events in the shape of nationalisation, the contributors and their employers have maintained their loyal and practical support. The ordinary income of the hospital benefited to the extent of £23,616 and although this was £6,466 less than in 1945, it has gratefully to be borne in mind that the Contributory Scheme also "made good" the deficit on the previous year's accounts amounting to £18,094, so that we received in all the substantial sum of £41,710.

It is a sad reflection that a magnificent voluntary effort like this should disappear with the coming of the State-financed hospital. The only justification for such a change will be an ever greater and more complete hospital service for the community when the financial background is secured by the State. It is to be hoped that the great body of contributors will find other outlets for their proved spirit of service and support.

Meantime, it is the pleasant duty of the Board to record once more their gratitude to those who have worked to achieve such a splendid result and to say "thank you" for their continued support.

LEGACIES, ETC.

Legacies amounting to £11,900 were received, gratefully acknowledged, and placed in Reserve Account. The sum of £18,094, mentioned above, was also added to that Account.

LINEN LEAGUE.

The Linen League provided the hospital with linen, garments and material to the value of £820.10s.5d. thus continuing unabated their very practical aid in the work of the hospital. Many tributes have been paid from time to time by the Honorary Surgeons to the valuable assistance which the Linen League gives in ensuring that adequate supplies of bed linen, etc., are available for the patients. This has no small bearing on the post-operative comfort and sense of well being of those who pass through the wards.

The Board here express the gratitude of all those patients to the loyal band of ladies who, with the able guidance and example of Lady Stephenson and Mrs. Meggitt, have given another year's service in this extremely practical manner.

TRAINING SCHOOLS.

MEDICAL STUDENTS.

During the year 26 Medical Students in the Medical School of the University of Sheffield completed the required course in gynaecology and obstetrics in residence at the Jessop Hospital. Students from other Universities have also been granted the training facilities of the hospital.

POST-GRADUATE COURSES.

Three Medical Officers returned from the Forces entered upon Post-Graduate Courses at the hospital.

PUPIL MIDWIVES.

Fifty-six pupil midwives completed Part 1 of their training ; 54 entered the examination ; 53 passed and 45 proceeded to complete their training at Part 2 schools. Those results are very gratifying.

GENERAL NURSING TRAINEES.

The first group of student nurses receiving their general training at the Sheffield School of Nursing entered the Jessop Hospital unit for gynaecological nursing in January. During the year 63 of those "circulating nurses" passed through the wards.

Miss D. M. Biddle resigned as Supervising Tutor to take up a similar appointment in Plymouth after giving excellent and fruitful service to the School of Nursing during the first and therefore difficult years of its existence. She is succeeded by Miss A. Hanvey, S.R.N., S.C.M., D.N., who was trained at the London Hospital.

"Ranfall," 15, Ranmoor Park Road, was purchased jointly by the three voluntary hospitals comprising the School and will commence to function as a Preliminary Training School in July, 1947.

GAS AND AIR ANALGESIC COURSES.

Thirty-seven practising midwives employed by the hospital and by Local Authorities, and 48 pupil midwives being trained at the hospital, received instruction in the administration of gas and air analgesia, and gained certificates of proficiency.

BOARD OF MANAGEMENT.

As reported in an addendum to last year's Report, Mr. James Henderson asked to be relieved of the onerous duties of Chairman of the Board after the Annual Meeting of Governors. By unanimous resolution of the Board a Ward was named "The James Henderson Ward" to commemorate with gratitude the long service Mr. Henderson had given to the hospital. The Ward was dedicated and named at a gathering of friends of the hospital and an illustration of the Plate is given in this Report.

Mr. Thos. G. Sorby who had been a Member of the Board since 1921 and Vice-Chairman for 18 years, was elected Chairman. Mr. W. B. Siddons accepted office as Vice-Chairman.

The Governors at their Annual Meeting elected Col. Wm. Howson, Honorary Treasurer.

MEDICAL STAFF.

The claims upon the time and skill of the Hon. Surgical Staff continue unabated and have been met so far as the capacity and facilities of the hospital permitted.

For their devoted service to the patients, thanks are once more gratefully expressed to the Hon. Surgeons, Mr. John Chisholm and Mr. J. Eric Stacey, and to the Hon. Assistant Surgeons, Mr. Glyn Davies and Mr. Leslie B. Patrick.

Professor Naish, as Hon. Paediatrician, and other Hon. Consultants rendered valued service during the year.

Changes in the composition of the Medical Staff included the resignations to take up other appointments of Professor G. A. Clark (Hon. Physiologist), and Professor Wilson Smith (Hon. Bacteriologist), and the Board express their appreciation of their valued services. Professor D. H. Smyth and Professor C. Beattie were appointed to the vacancies.

The sudden and tragic death of Mr. H. J. Green, Surgical Registrar, only 15 months after his return to the Jessop Hospital, following distinguished Army service at home and overseas, deprived the Hospital of an efficient surgeon and the staff of an esteemed colleague. Mr. Green was destined to go far in his profession and to uphold the high reputation of the Jessop Hospital if he had been spared to continue his work here. The return home to Canada of Mr. W. J. McCord who had efficiently served the hospital as Registrar during most of the War years was also a much regretted loss.

Mr. J. C. Newbold, M.A., F.R.C.S., M.R.C.O.G. and Mr. S. J. Barr, M.B., B.Ch., B.A.O., M.R.C.O.G. have been appointed Registrars.

Mr. J. D. Hopewell, B.Sc., M.B., Ch.B., was appointed Assistant Pathologist.

HON. CHAPLAIN.

The Rev. W. Garlick, M.A., Vicar of St. Georges' was appointed Hon. Chaplain to the Hospital.

STATUARY GROUP, ETC.

A very pleasant ceremony took place in October when a Statuary Group, the gift of Mr. Miles H. Phillips, who was Senior Surgeon from 1921 to 1935, was unveiled in the main entrance hall. The statuary depicts "Motherhood," and was executed by Miss Rosamond Praeger, Belfast. It is illustrated elsewhere in this Report, and has been greatly admired by visitors to the hospital.

At the same time, Mr. Phillips presented a commemoration plate to be fixed to the building in Figtree Lane which was the original Sheffield Hospital for Women (also illustrated).

“MOTHERHOOD ”
STATUARY IN MAIN ENTRANCE HALL presented by
MR. MILES H. PHILLIPS.

NURSING STAFF.

Under the efficient control of the Matron, Miss N. W. Horton, the nursing staff met all demands upon their services, and many expressions of gratitude were received from patients for those kindly ministrations. The number of nurses and midwives has been well maintained throughout the year, and the Board are grateful that shortage in nursing staff has not been one of their anxieties.

DOMESTIC MANAGEMENT.

Miss S. M. Harrison, Dietitian and Food Supervisor, resigned to take up an appointment in London, having given three years' excellent service as the first holder of that new Office. The Board decided to re-arrange the domestic side of the hospital by appointing a Domestic Manageress, who would have charge of all domestic personnel and services other than those in Wards and adjuncts—an arrangement recommended for all hospitals by the Ministry of Health and the King Edward Hospital Fund—thus leaving the Matron free to devote more of her time and experience to the supervision of nursing and midwifery.

Miss G. M. Kiddy, who had had extensive catering and domestic management experience, was selected to take charge of the department, and she will have a cook-dietitian on her staff. The new arrangements are proving of benefit to all.

DOMESTIC CONDITIONS.

With the approval of the Government a Joint National Council, representative of hospital authorities and employees other than professional and technical staffs, was established and has explored the whole field of male and female domestic service in hospitals. The resulting Report and Recommendations as to wages and conditions have been adopted by the Board with substantial benefit to the employees concerned. The hospital is affiliated to the Yorkshire Provincial Council of the National body and has given effect to the various awards with local application in supplementation of the National scales and conditions. Those awards have constituted a considerable addition to the cost of the hospital and, together with increases recommended by other bodies dealing with nursing and professional staff, have contributed largely to the deficit in the year's accounts. The wages and conditions of hospital employees now compare favourably with those in most other spheres, and it is hoped this will result in adequate staffing of all hospitals both in quantity and quality.

STRUCTURAL IMPROVEMENTS.

The extension of the kitchen has now been completed and provides much improved scope and amenities for this most essential department.

The Ante-Natal Out-Patient Department is nearing completion and will be in use soon.

Reference was made in last year's Report to the preparation of plans of a new Teaching Block, including a large Gynaecological Out-Patient Department, and extensive laboratory accommodation. The plans were completed and submitted to the Ministry of Health towards the end of the year. Much to the regret of the Board and Medical Staff, the Ministry have decided that the Block as planned must await the decision of the new Board of Governors to be constituted under the National Health Service Act, but this delay would, unfortunately, have ensued in any case owing to the present difficulties as regards materials and labour. It is hoped that some progress may be possible soon in providing the urgent requirements of the hospital in respect of out-patient and laboratory services.

THANKS.

The continued support of subscribers in these difficult times, when expenses are increasing and State aid is still a thing of the future, is very gratifying to the Board, and they record their grateful appreciation.

Thanks are also given for generous grants from the Town Trustees, Church Burgesses' Trust, Alexandra Rose Day Committee, Hospital Sunday Fund, and for donations from other sources.

Gifts in kind have been generous and special thanks are extended to the people of the British Commonwealth and Empire and of the United States of America, and to the British Red Cross, whose gifts of linen, hardware, clothing, foodstuffs and miscellaneous comforts have been of inestimable value in these days of rationing and scarcity.

THE FUTURE.

The days of the Voluntary Hospitals as such are literally numbered. By this time next year (according to present plans) the new Health Service will have commenced and all the hospitals will have passed into the ownership of the State. In the words of the Act, it becomes the duty of the Minister of Health—

“ to promote the establishment in England and Wales of
 “ a comprehensive health service designed to secure
 “ improvement in the physical and mental health of the
 “ people of England and Wales and the prevention,
 “ diagnosis and treatment of illness, and for that purpose
 “ to provide or secure the effective provision of services.”

Now that the Bill has become an Act, it is the duty of all within the hospital service to prepare for the coming of this new era when every person will be entitled to all forms of medical and surgical treatment from that by the general practitioner to the highly specialised service of the hospitals. The Jessop Hospital has been pre-eminent in providing treatment of midwifery and diseases peculiar to women, together with the training of future doctors, nurses and midwives. The Board have decided that everything that can be done will be done in those few remaining months of voluntary management to maintain and where possible improve those facilities so that the Jessop Hospital may be handed over to the Government as a building, and to the new Board of Governors for its management, in the highest state of efficiency. Although then the control of the service given to the women of Sheffield and district for 83 years will pass into other hands, the Board are confident that the far-famed medical and nursing reputation of the Jessop Hospital will be maintained and, they hope, will expand in a still wider field of service to the community.

The Board feel sure that during the few remaining months of their regime they can rely upon the continued support of all subscribers and helpers without whose aid in the past the Jessop Hospital could not have provided the care and treatment to which so many women of Sheffield and the surrounding area have so often paid grateful tribute.

On behalf of the Board of Management,

THOS. G. SORBY,

Chairman.

23rd May, 1947.

LEGACIES.

NOTE TO SOLICITORS AND INTENDING DONORS.

Although all hospital *buildings* will be transferred to the ownership of the State on the “appointed day” (5th July, 1948), *capital funds* are not so transferred. In the case of a teaching hospital or group of teaching hospitals (the Jessop Hospital is a teaching hospital), all reserve funds and future additions by legacies, etc., will be vested in a Board of Governors to be used for such purposes relating to hospital services or research as the Board think fit. As full maintenance cost will be borne by the State, the value to a hospital of such a Reserve Fund to be used in accordance with local needs by local decisions, is apparent. The Board will be grateful if intending donors will keep this in mind when considering bequests and hope that Solicitors will inform their clients of this position when asked to advise.

Any person wishing to bequeath by Will a Legacy to this Charity is desired to do so in the following form :—

“ I give to the Jessop Hospital for Women the sum of
(in words) free of duty, and I declare that the
receipt of the Treasurer of that Institution
shall be a sufficient discharge for the said
Legacy.”

THE JESSOP HOSPITAL FOR WOMEN, SHEFFIELD.

School for intending Midwives and Health Visitors.

APPROVED BY THE MINISTRY OF HEALTH AND
CENTRAL MIDWIVES' BOARD.

The Hospital is approved by the Central Midwives' Board and recognised by the Ministry of Health as a Training Institution under New Section B of the Central Midwives Board Rules.

The new Rules divide training into two parts of six months each for intending midwives who are already Trained Nurses. An examination will be held after each period of six months and only students who pass the second examination will be admitted to the Roll of Midwives.

For intending Health Visitors training consists of one period of six months.

The Jessop Hospital provides midwifery courses for Health Visitors and intending midwives for Part 1 of their training.

Pupils must make their own arrangements for Part 2 of the training but a list of approved schools is provided.

Pupils are received mainly from General Training Hospitals in Sheffield and District, but there are a limited number of vacancies for other pupils. Grants are payable by the Ministry of Health under certain conditions and pupils who fulfil these conditions and therefore become eligible for grants will receive salary at the rate of £85 per annum (which includes the grant) during both periods of training.

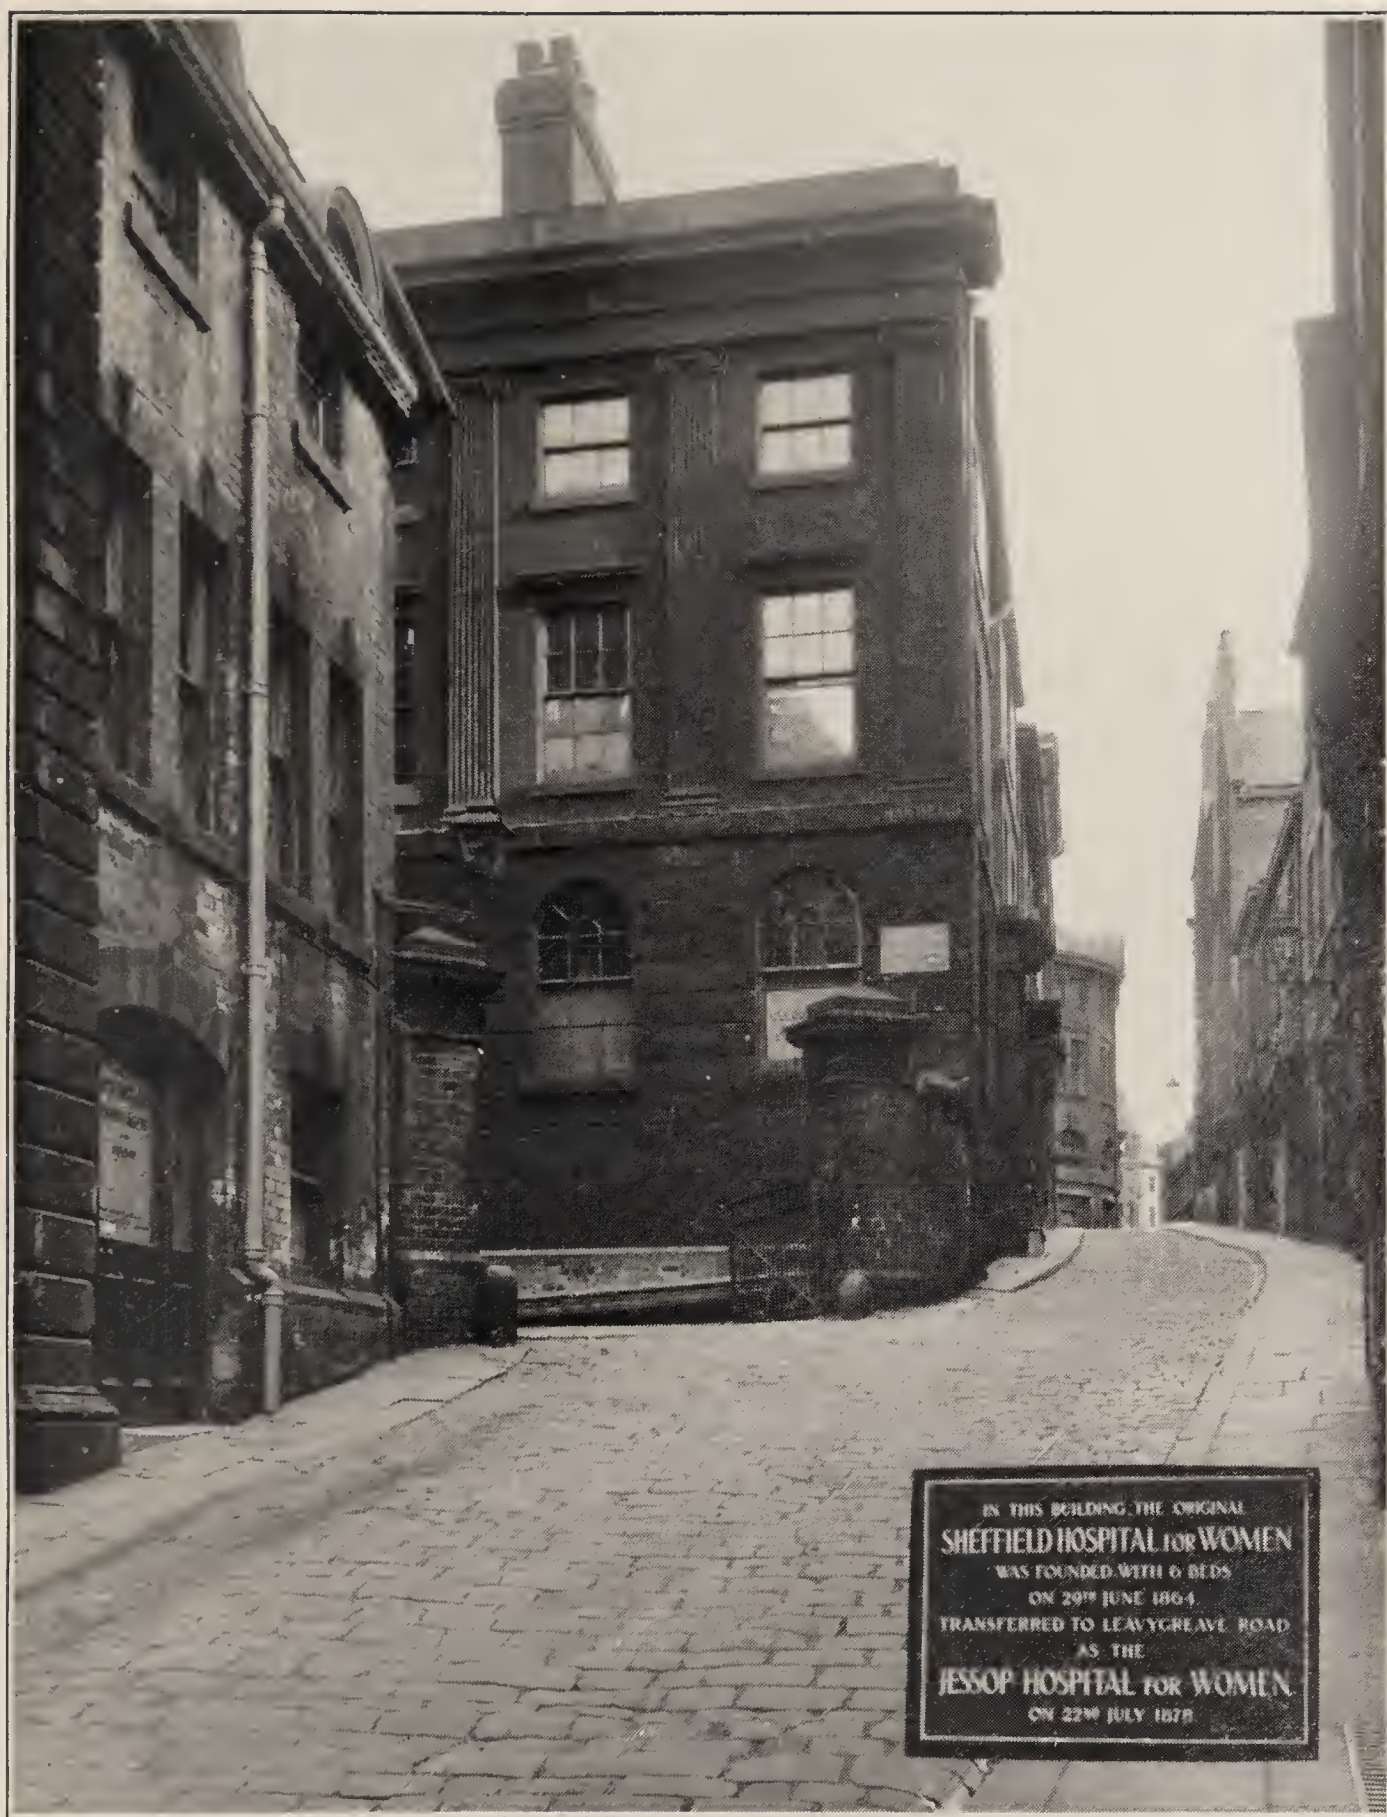

Applications for further particulars and vacancies should be addressed to Matron.

POST CERTIFICATE SCHOOL FOR PRACTISING MIDWIVES.

(Suspended meantime)

The Hospital is approved by the Central Midwives Board as a centre at which post-certificate courses will be provided under Section 7 (1) of the Midwives Act 1936.

The fee will cover all necessary professional charges, except the fees of other Consultants which will be payable by the patient in addition should the services of other Consultants be required.
